SKILLS

- iOS: Swift, SwiftUI, UIKit, CoreData, SwiftData, XCode IDE, Async-Await Concurrency, Combine, XCTest, MVVM, Apple Foundation Models, App Store Connect, Test Flight
- AI + Tooling: Cursor, Claude Code, Figma MCP, Supabase, REST APIs

EXPERIENCE

Indie iOS Apps | iOS Developer/Engineer | 3+ Live Apps on the Apple App Store

- Localyze - 100% privacy-first AI Journal | localyzeai.notion.site | 25+ Beta Test Flight Users
 - Engineered with on-device Apple Foundation Models for AI sentiment analysis that extracts actionable tasks from users' journal entries. Designed with async-await concurrency
 - Integrated CoreData for local data storage, ensuring user data never leaves the device
 - Architected a reactive UI with an MVVM pattern and Combine framework (Programmatic UIKit)
- VocaList - AI Voice Powered Task Manager | vocalist.lovable.app | 300+ Downloads
 - Uses OpenAI's Whisper model for voice-to-text transcription with a SwiftData SQLite database for a fully on-device, local design
 - Built in declarative, reactive SwiftUI with custom UI components designed with Claude

Barclays Investment Bank | NYC

Jun '20 - Feb '26

Software Engineer | Client Valuations Reporting Technology

- AI-driven development (Github Copilot, Gitlab Duo) to diagnose and refactor SQL bottlenecks, cutting report delivery latency by up to **2 hours** for key clients such as BlackRock and Jane Street
- Reduced memory usage by **10%** during critical hours by optimizing key pipelines, affecting over **120,000** system-generated reports sent daily (SQL, C#, Python)
- Drove UX and Development for a new in-house reporting platform to replace a 3rd party SAP tool, **empowering 300+** traders to self-generate reports in real time (React, Figma MCP)
- Led reconciliation across two credit data collection systems, creating a single golden source report ensuring accuracy and eliminating **multiple daily** checks between Ops and Tech (SQL)

JetSweat | Seed-Stage Fitness Tech Startup | NYC

May '19 - Aug '19

iOS Engineer Intern

- Shipped onboarding experiences in Swift (UIKit) to **5,000+** registered users, turning designs into engineered solutions, aiding users through the features of the app
- Built Settings screen with VoiceOver and ColorBlind toggle support using UIKit Accessibility APIs

EDUCATION

University of Maryland, College Park

Graduated May '21

B.S. in Computer Science | Minor in Global Engineering Leadership
